**The Markets****Wall Street**

(By Leaven Wire to Evening Herald)

New York, Feb. 16.—The several pullback which the market has experienced this year came today. Prices at last broke away from the approximate level which had been maintained for weeks. Further suspension of the new freight rate schedule by the interstate commerce commission ended all hope of a speedy advance and railroad shares bought in anticipation of a rise when the increase was granted, were unloaded.

Industries were depressed by reports of reductions in wages of steel mill workers. Stock, which had been conspicuously firm recently, was sold freely, and weakness of this issue permeated the whole list. The liquidation of minor shares also had an unsettling effect. The trend failed to attract outside buying and the market made no recovery during the morning.

Bonds were heavy.

Foreign sales were estimated at 26,000 shares. Western Union showed exceptional strength, rising nearly three points. Pad operations in Central Leather continued to force the price upward and it sold at 25, the highest since 1910.

All the snap and activity went out of the market when efforts were made to push up prices. Strength of American Telephone and Western Union was associated with rumors that the telephone company holdings of telegraph stock would be syndicated.

Closing prices on the more important stocks were:

Amalgamated, 73%.

Sugar, 106 1/2.

Atchison, 85 1/2.

Reading, 166 1/2.

Southern Pacific, 96 1/2.

Union Pacific, 181 1/2.

Steel, 65%.

Steel preferred, 108.

The market closed heavy. A sharp fall in the Petroleum shares and Mexican loss nearly five points had an unsettling effect. Prices returned to the lower.

Chicago, Feb. 16.—Wheat prices hardened today, influenced by the fact that world shipments were small and by statements that rats were interfering with the harvest in a large part of India. Decreasing stocks northwest of here counted also against the bears. The market after opening a shade off to a shade up, made a moderate general advance.

The close was 1 1/8@1 1/4 net advance.

Higher values had a bullish effect on corn. Pit offerings were light, prices started a shade in 1 1/8@1 1/4 above Saturday night's figures and scored some further gain.

The close was easy at the same as

Saturday night to a sixteenth higher.

Methodist Minister Recommends Chamberlain's Cough Remedy.

Rev. James A. Lewis, Milaca, Minn., writes: "Chamberlain's Cough Remedy has been a needed and welcome guest in our home for a number of years. I highly recommend it to my friends as being a medicine worthy of trial in cases of colds, coughs and bronchitis. Give Chamberlain's Cough Remedy a trial and we are confident you will find it very effectual and continue to use it as occasion requires for years to come, as many others have done. For sale by all druggists."

Fremont, Neb., Wool Not Sold—Advise to the effect that certain wools understood to be largely Wyoming and Idaho, a very little business has been done but only a few cities are involved. Prices have shown little advance if any over those paid up to a week ago. Possibly one-half cent more has been paid but about 16 cents is reported as being the top on average Nebraska and 14 cents on Utahs.

Fremont, Neb., Wool Not Sold—Advise to the effect that certain wools understood to be largely Wyoming, held in Fremont, Nebraska, had been sold to a certain mill account were evidently untrue, as Mr. W. R. Adams of that place writes us under date of February 2nd, that he still owns 300,000 pounds of these wools, principally Wyoming and Montana, and that they are still for sale. Late advice also indicates some wool still left in Omaha, also.

Territory—Only a few houses have any quantity of territory wool to offer at the moment and with these houses the times are very much split up. Sales in the local market during the week have been limited indeed. A line of chaffing wool is reported running well up towards a million pounds at a clean cost of around 52 cents for the best goods, although some dealers are asking 54 to 56 cents for their best fine wools at the moment. Sales in the market have included a little of everything, some 20,000 pounds of Utah being sold at 16 cents clean. Some buying is also reported at around 15 cents or about 50 cents clean basis. A Billings, Montana three-eighths wool is reported on private terms but fully 40 cents clean basis and possibly 47 cents.

Interest on Part of Wool Buyers Shows No Diminution: Prices Are on Upward Tread Generally.

Boston, Mass., Feb. 16.—The volume of business accomplished in the Boston wool market during the past week has doubtless been of smaller volume than was the case in the week preceding but interest on the part of buyers has shown no diminution and prices are on the upward trend again. Indeed, prices, by comparison, may be termed as disproportionately high on certain grades. The world's market, however, is still moving upward and so the advances here must be sustained for the present at least, says the Boston Commercial Bulletin.
